

## **Chicken Quesadillas**

Cooked and shredded chicken  
1 can cream of chicken soup  
½ cup sour cream  
Tortilla shells

Heat up the chicken – we like it meaty around here, but you can add as much as you need to feed your family.

Stir in the soup and sour cream. I like it really creamy but my husband doesn't – so it just depends on who is cooking that night!

Once it is all heated through, you can put your quesadilla together in any way you want. Sometimes, we use one tortilla, put some filling inside and fold it, then fry it in some hot oil. Or use two tortillas and heat in a quesadilla maker or in your skillet.
